

When life gets too hard to stand, KNEEL.

If you take 1 minute to read this prayer, imagine how many prayers are going up for our countries.

Hi Lord, it's me.

We are getting older and things are getting ...bad here. Gas prices are too high, no good jobs for ordinary folk, and food and heating costs are too high. Speculation has driven up housing costs. More and more young people are afraid to make a life commitment in response to the vocations you offer, calling them to marriage and family, or religious life, or priesthood.

I know some have taken You out of our schools, government, business, and even Christmas, but Lord I'm asking You to come back and once again bless our countries – here in the Americas – North, South, and Central.

There are more of us who want You than those who don't, even if those others are often louder than we are and more intimidating to those who govern us! Many are either ashamed to acknowledge You in public or they ridicule You.

We are very few here in Canada spread out in a vast land but we turn to You.

We really need You! Strengthen us to give witness to You openly with this prayer and in as many other ways as we can, always with respect for others.

Thank You Lord, I Love You.

*Feel free to share this prayer with others.
Only you and the Lord will know.*
